Feedback:

The European Seed Association welcomes the initiative of the European Commission to open the review of Regulation (EC) 1107/2009 according to Article 82 of the Regulation.

Since the coming into force of the Regulation valuable experience has been gained by its implementation by seed companies in the Member States. Nevertheless, ESA is of the opinion that certain elements of the Regulation should be amended in order to facilitate the easier operation by the seed industry.

ESA takes this opportunity to address the elements that it would like to see being included in the review of the Regulation.

In the attached document can be found the input of ESA.
