B.01 Exchange of views and possible opinion of the Committee on a draft Commission Regulation amending Annex III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for fosetyl in or on certain products.

The Commission introduced the draft and presented its contents.

Member States agreed to inform their respective enforcement authorities about the outcome of the vote (i.e. effectively prolonging the temporary maximum residue levels of 75 mg/kg for almonds, cashew nuts, hazelnuts/cobnuts, macadamias, pistachios and walnuts beyond 31 December 2015 until 1 March 2019), and the application date set out in the draft of 1 January 2016.

Vote taken: Favourable opinion.
